Serial No.: 09/988,193

In the specification:

On page 5, please replace paragraph 22 with the following:

22. The lower part of the backing shielding plate is attached to the lower part of the abutment place in the embodiment shown by rivets 26 that extend through the backing shielding plate, the abutment plate and washer plate 28. The bolts passing through holes 8 secure the upper part of the abutment plate and the central part of the shielding plate to each other. Clearly, other configurations maybe may be required for other brake designs.
